

CDSCO New Drug Application (Form 44)

Applicant Details

Company: Soto, Hunter and Walker
Address: 3756 Michael Locks Lake Thomas, GU 29436
Authorized Person: Anthony King

Drug Details

Drug Name: oCncurex
Generic Name: MBxmycin
Dosage Form: Capsule
Indication: Hypertension

Composition

Component	Quantity
MBxmycin	500 mg
Excipient A	100 mg
Excipient B	10 mg

Chemical & Pharmaceutical Data

Molecular Formula: C20H25CIN2O5
Molecular Weight: 408.88 g/mol
Solubility: Water soluble
Stability: 24 months stability data available

Animal Pharmacology

Validated pharmacological activity with PK/PD data.

Toxicology

No significant toxicity observed. Genotoxicity negative.

Clinical Trials

Phase I, II, III completed successfully with strong efficacy.

Regulatory Status

Approved in US/EU. No restrictions.

Prescribing Info

Dosage defined. Side effects documented.
